EDUCATION

Northeastern University | Boston, MA

Candidate for Bachelor of Science in Computer Science and Finance

May 2029

GPA: 4.0

Relevant Courses: Programming Fundamentals I & II, Discrete Structures, Algorithms and Data, Accounting I and II

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML, CSS, C, C++, Java, SQL

Frameworks & Tools: React, FastAPI, NumPy, Pandas, Docker, Git, Bash, Supabase, STM32CubeMX, FreeRTOS

EXPERIENCE

Northeastern University Electric Racing Team

Boston, MA

Embedded Software Developer

Aug 2025 - Present

- Developed SHT30 temperature sensor driver over I2C on STM32 (HAL) with custom read, write, and blocking-read abstractions for Formula SAE race car
- Refactored shutdown circuit sensing logic using combined interrupt-driven and timer-based polling across fault pins, improving fault detection response time and reducing false-positive shutdowns by **50%**
- Collaborated across firmware and electrical subteams of **15-20** members, completing **3+** tickets per week

The Northeastern University Debate Society

Boston, MA

VP of Finance

Aug 2025 - Present

- Managed a **\$14,000+** annual budget, allocating funds for tournament travel, payments and hosting costs
- Built and maintained a tracking system (Excel) to monitor club cash flows, increasing savings by **12%**
- Processed, reconciled, and recorded reimbursements for **15+** tournament trips per semester
- Presented quarterly financial reports to other members of board on spending trends and budget reallocations

Northeastern AI Club

Boston, MA

Machine Learning Researcher

Aug 2025 - May 2026

- Collaborated to develop ML algorithms for accurately mapping and modeling neutron reflectometry data
- Conducted empirical analysis of model performance across **1000+ row datasets**, investigating overfitting, bias-variance tradeoffs, evaluation metric selection, gradient vanishing, and convergence problems

Conejo Parks and Recreation

Thousand Oaks, CA

Summer Camp Counselor

May 2025 - Aug 2025; May 2026- Aug 2026

- Supervised and mentored groups of **15-30** children aged **6-16** in daily activities and educational programs
- Resolved conflicts and adapted to resource constraints, adapting programming under changing conditions
- Collaborated with fellow counselors to create an inclusive and supportive camp environment

PROJECTS

Rate and Find Clubs Northeastern

Boston, MA

Husky Club Quest

Jan 2026 - May 2026

- Scraped data, built, and maintained PostgreSQL database of **600+** Northeastern student organizations in Supabase
- Developed backend API endpoints in FastAPI to support club search, filtering, and student rating functionality
- Designed database schema and wrote SQL queries to manage club metadata and aggregate user-submitted ratings

INTERESTS

- Reading, Cooking, Running, Debate, French
